Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories

(e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Any inquiries or issues regarding the product, please contact us via email at: thang.techcareers@gmail.com.

For product improvement purposes, design and specifications of the product are subject to change without prior notice

Model & Name	Automating Coffee Machine
Product dimension (W*H*D)	370mm*700mm*370mm

CHECKING THE COFFEE MACHINE

Main Body.

➤ Image Annotation.

1. Display: Shows brewing settings and status.
2. Power Button: Controls the machine's on/off function.
3. Coffee Pot: Holds brewed coffee.
4. The Lid: Covers the brewing chamber or reservoir.
5. Handle (at the rear side): Provides a grip for easy maneuvering.

USING THE COFFEE MACHINE

Turning the power on/off

Once activated, the coffee maker will sound a bell and begin the connection check process.

When the coffee maker is powered on, the sensor will check the inventory and will be displayed for 5 seconds.

If the inventory is low, a notification will be displayed with a bell.

Warning: When turning on the power, please ensure that the coffee machine is placed on a stable and level surface to prevent spillage or tipping.

Welcome to Automating Coffee Drawing! This user manual will guide you through the steps required to use the desktop version of our software.

Instruction using Desktop Software (Text)

Step 1: Download Software

1. Visit the download link provided: [coming soon].
2. Follow the on-screen instructions to download the software to your computer.

Step 2: Install Software

1. Locate the downloaded software file on your computer.
2. Double-click the file to begin the installation process.
3. Follow the installation wizard prompts to complete the installation.
4. Once installation is complete, you're ready to use Automating Coffee Drawing.

Step 3: Logging In

1. Launch the installed software on your desktop.
2. You will be prompted to log in.
3. Enter the following credentials:
 - Username: admin
 - Password: admin
4. Click "Login" to access the software.

Step 4: Using the Software

1. After logging in, you will be presented with the main interface.
2. Choose any option or feature you want to utilize.
3. Follow the on-screen instructions to proceed with your chosen action.

Additional Tips

If you wish to view your order history:

1. Look for the "Order History" option.
2. Click on it to view your past orders.

For assistance or inquiries, click on the help icon (?) or contact our support team.

Remember to log out of the software when you're done to ensure security.

Conclusion

Congratulations! You have successfully learned how to download, install, and use Automating Coffee Drawing on your desktop. If you have any further questions or require assistance, don't hesitate to reach out to us.
